

Remarks

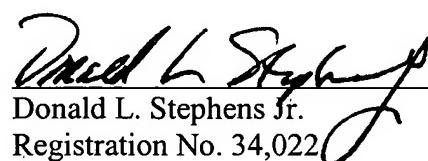

Consideration and entry of the foregoing amendments are requested. The amendments are to correct certain grammatical and spelling errors that were found during a review of the application following receipt by the undersigned of the Notice of Allowance, dated December 24, 2003. Absolutely no new matter is submitted.

This application was allowed on a first Office action. Normally, the undersigned reviews an application in preparation for responding to a first substantive Office action. Since this application was allowed on a first action, the opportunity to perform that review did not arise before now. Hence this amendment at this time.

Respectfully submitted,

KLARQUIST SPARKMAN, LLP
